

TESTIMONY IRUOGHENE OKEGBE

Port Harcourt, Rivers State, Nigeria | testimonyokegbe@gmail.com | [GitHub](#) | [LinkedIn](#)

PROFILE

I'm a Computer Engineering student and aspiring Software Engineer with a strong interest in full-stack web development, artificial intelligence, and building software that solves real-world problems. I enjoy turning ideas into practical, user-focused web applications. My current experience includes HTML, CSS, JavaScript, React, Git/GitHub, and backend development, while I'm expanding my skills with technologies such as Next.js and Python and exploring AI/ML and AI integration.

EDUCATION

B.Eng. Computer Engineering | Federal University of Technology, Owerri 2023 – 2028 (Expected)
Secondary School leaving Certificate (SSCE) | Bishop Crowther Memorial Secondary School, Port Harcourt 2023

EXPERIENCE

AI Fluency Intern | FlyRank 2026 | Remote

- Completed a structured AI fluency track covering prompt engineering, AI-assisted development workflows, and documentation practices.
- Built the initial FlyRank React app (Vite + Tailwind + Firebase) with Firebase Auth, Firestore, React Router navigation, a Notes feature, and an AI chat component powered by Anthropic API streaming.
- Developed responsive and user-friendly web interfaces using HTML, CSS, JavaScript, and React.
- Implemented and refined frontend features based on project requirements.
- Used Git and GitHub for version control, code management, and collaboration.
- Strengthened practical software engineering, problem-solving, and collaborative development skills.

Assistant Site Engineer | New Port City 2025 – Present | Part-time

- Support the main site engineer in organizing the construction site and coordinating daily site activities.
- Assist with marking out and setting foundations for buildings.

Campus Ambassador | Cowrywise 2025

Computer Operator & Assistant Manager | Zeb Height Technologies 2023 – 2024 | Full-time

- Worked as a computer tutor, teaching students Introduction to Computer Fundamentals and Microsoft Office (Word, Excel, PowerPoint).
- Supported daily computer operations and assisted with managerial duties at the center.

PROJECTS

Study Assistant Web App (Capstone Project) | Personal / Academic

- Built a full-stack React/Vite study assistant with an AI chat feature (Gemini API via Express, server-sent events streaming), a PDF reader (react-pdf with IndexedDB persistence), notes, a calculator, and a dashboard.
- Implemented Firebase Authentication (email/password and Google sign-in) with user-friendly error handling.
- Built Firestore CRUD functionality with real-time listeners for the notes feature.
- Diagnosed and resolved production deployment issues on Vercel, including unresolved import errors, CSS import-ordering bugs in Vite, and Git/GitHub hygiene for keeping secrets out of version control.
- Set up Jest for testing and structured the UI around a shared Navbar/Layout pattern using React Router v6.

Real Estate Portfolio Frontend | Personal Project

- Designed and deployed a real estate portfolio frontend, independently hosted on Vercel.

Early Web Projects | Personal Projects

- Built an e-commerce site (HTML, CSS, JavaScript, Tailwind).
- Built a currency converter and a personal portfolio site to establish core front-end fundamentals.

TECHNICAL SKILLS

Languages & Core: JavaScript, HTML, CSS, Python, MATLAB

Frameworks & Libraries: React, Next.js, Node.js, Vite, React Router, Tailwind CSS, Express

Platforms & Tools: Firebase (Auth, Firestore), Git/GitHub, Vercel, Render, Jest, VS Code, Claude Code, Microsoft Office

AI Integration: Anthropic API (SSE streaming), Gemini API, prompt engineering, AI-assisted development workflows

Engineering Foundations: Circuit analysis, electromagnetics, differential equations, linear algebra, signal processing, engineering economics

Soft Skills: Leadership, communication, problem-solving
